## Faculty

**Amel Dedic, Professor**  
Amel is a post-graduate and instructor with developer/designer. She has been teaching web scripting at Algonquin since Winter 2014 and graduated in 2009 from the Algonquin College with a diploma in Interactive Media (Specialized in Interactive Media Management). From 2009 to 2014, she worked for the faculty as a front-end developer. Amel also graduated from the University of Ljubljana in 1997 with a degree in industrial engineering.

**Samar Elamin, Professor**  
Samar Elamin is a fully qualified diploma in English Business from the University of Alexandria, Egypt, and a Master of Science in Information Technology from the University of Nottingham, UK. She graduated the Interactive Media Management program at Algonquin College with honours in 2015. After 2 years as a front-end developer at BlackBerry in Alexandria, Egypt, she is now a professor of Graphic Technologies at Algonquin College. She is also a UX/UI leading coordinator at Sector Canada.

**Darin Faber, Program Coordinator, Professor**  
Darin has been teaching for over 15 years, including 7 years at Algonquin College, and is a graduate of the Interactive Media Management program. He has a passion for teaching and sharing ideas with students. His background includes a wide variety of disciplines, including graphic design and layout, web publishing, HTML development, photography, audio and video editing, programming, and project management.

**Rob Kingsbury, Professor**  
With over twenty years experience in the industry, Rob Kingsbury brings a wide range of knowledge and experience to the program. He has worked for clients across a diverse range of sectors, from large corporations to start-ups. Rob's goal as an educator is to make web design accessible and fun for all students. He can also become passionate about helping amazing students. Rob is a past graduate of the Interactive Media Management program.
